

Plant A Tree

By Melinda Carroll

1st Verse

We are the caretakers of this earth
And each generation has a right to their birth
Into a world that is clean and bright,
With forests of green and the golden sunlight.

Chorus

For we are growing, showing that we care.
And each light is glowing, knowing as we share,
We're giving it back to the earth.
Plant a Tree.

2nd Verse

And as each little seed begins to reach for the sky,
With roots deep and strong, and so it beautifies.
We give it the love and the care it needs.
How grateful the earth for the gift of a tree.

Bridge

We are the forest, we are the seed,
We are the force that can supply the need.
Planting our future, one by one,
Shining under the sun.

3rd Verse

It's important to me, it's important to you,
So amazing what one simple act can do!
When we plant a tree and for all it's worth,
We're putting the green back in this beautiful earth!
