

Circle of Love (Vol. 6)

By Melinda Carroll

1st Verse

Campfire's burning low, faces in the afterglow,
All are good friends, a feeling so strong.
And here in the fire's light, it's time for us to say goodnight,
Come let us join in one more song.
(And everybody sang along.)

Chorus

In a circle of love, (circle of love) in a circle of friends, (circle of friends)
With my sisters I lift my voice; and sing till the music ends.
La la la la la la , la la la la la la la la.
La la la la la la la la la la.

2nd Verse

Friends are like the harmony, to a single melody.
Together we blend like birds of a song.
And underneath the stars tonight, I wish I may, I wish I might
Cherish my friends my whole life-long.
(And everybody sang along.)

3rd Verse

Tomorrow when we've left and gone, time will keep moving on,
But to this moment we'll always belong.
'Cause special times are just like these, they bring the sweetest memories.
And this is the one that will linger on.
(When everybody sang along)
