

## **Everyday Angels (Vol. 4)**

By Melinda Carroll

### **1st Verse**

Everyday Angels walk this world with me.  
Everywhere we go , they move so easily.  
We may even pass them by on a sidewalk or a street,  
Cause Everyday Angels move lightly on their feet.

### **2nd Verse**

Everyday people, 're looking for a smile  
Cause everyone needs one, every once in a while.  
Heaven knows, the storms may blow, till you think you've reached the end.  
That's when those Everyday Angels quietly descend.

### **1st Chorus**

Everyday angels, take every opportunity  
To shine a light, or lend a hand, share a smile with the people they meet.  
This is for those everyday angels, who brighten up somebody's day.  
You know it's all right, if we just try,  
We're all just learning to fly.

### **3rd Verse**

Everyday angels are not so hard to see.  
Everyone knows one, they look like you and me.  
It's only right to celebrate, these unselfish acts of love.  
You know it doesn't take an angel to come down from above.

### **2nd Chorus**

Everyday angels, take every opportunity  
To shine a light, or lend a hand, share a smile with the people they meet.  
This is for those everyday angels, the sunshine in somebody's day.  
You know it's all right, if we just try,  
We're all just learning to fly.
