## **Creative Concert Planning - Make it a Great Success!**

Consider...

1. How would your council and girls most benefit from this experience? What age group(s) would be your focus?
2. Is this event just for the girls, or girls and their families, or is it a community event for all?
3. If it's an all-council event, are there other councils in your area who might like to join with you to share the fun, expenses and advertisement.
3. How about taking an early consignment of products 6 months prior to the event and begin advertising at your council, offering products for sale in your shop. (Some councils have paid for the entire event by doing this!)
4. What's your best way (or ways) to Advertise, Advertise, Advertise...?
  - Use social media, e-Blasts and phone apps for your Council.
  - Create and post flyers around your community.
  - Post an ad on your Web Site promoting the event and products.
  - Post ads in the free community daily, weekly, and monthly papers and magazines.
  - Email your local TV and radio media.
